“ Instalments on Notes,	2,500 00
“ Discount, Collection and Abatements,	1,000 00
“ Grant for Fire Department,	600 00
“ Necessary Town Uses,	2,500 00
“ Librarian,	50 00
“ Town Library,	200 00
“ Additional Grant to High School,	250 00
State Tax,	637 00
Over Lays,	758 96
	<hr/>
	\$16,895 96

COMMITTED IN ADDITION,

County Tax, \$1,121 12, paid to County
Treasurer by Collector.

School Dis. Tax:

Dis. No. 1,	\$1204 16	
“ 2,	1745 79	
“ 4,	453 66	
“ 6,	313 29	
“ 7,	317 61	=4034 51
		5155 63
		<hr/>
		\$22,051 59

In our last report we stated that the County and School District Taxes were paid to the County and District Treasurer by the Collector. The County Tax has been paid, but from a misunderstanding between the

Collector and Treasurer, the School District Taxes for 1857 have not been settled, but are in course of adjustment, with the assurance that they will be immediately settled. No order has been drawn for discounts allowed in 1857.

The Collector of 1858 has paid over to the County Treasurer the County Tax, and received an order for the amount of discounts allowed, including the School District Taxes, which amounts are now due from the several School Districts.

Liabilities of the Town, Feb. 25, 1859.

Report of the Board of Engineers.

The Engineers submit the following Report of the condition of the several Engine Companies, together with their Apparatus, belonging to the Town of Natick.

VICTOR ENGINE Co. No. 1 is located in the centre village. Number of members, 50. They have 24 feet of Suction Hose, one Hose Carriage, with 400 feet of good, and 100 feet of old Leading Hose. Condition of House, Engine, &c., good. Number of buckets and pails, 8.

ELIOT ENGINE Co. No. 2 is located at South Natick. Number of members, 35. They have 24 feet of Suction Hose, one Hose Carriage, with 200 feet of good, and 200 feet of old Leading Hose, 8 buckets and pails. Condition of House, Engine, &c., good.

MAZEPPA ENGINE Co. No. 3 is located at Felchville. Number of members, 50. All of the Engines built by Hunneman & Co., Boston. They have 24 feet of Suction Hose, one Hose Carriage, with 100 feet of new, 270 feet of good, and 100 feet of poor Leading Hose. Number of buckets, 4. The Engine House, &c., in good condition.

UNION HOOK AND LADDER Co. No. 1 is located in the centre village. Number of members, 25. The Apparatus consists of a Hook and Ladder, Carriage on wheels, and a set of double runners, 14 ladders, 11 hooks and crotchets, 1 grapple, axes, buckets, &c., all in good condition.

The Board have approved bills as follows, viz. :

Victor Engine Co., bill for attendance at fires	
and for Poll Tax,	\$351 50
Eliot Engine Co., bill at Fires, and for Poll	
Tax,	145 75
Mazeppa Engine Co., bill at Fires, and for	
Poll Tax,	110 00
	<hr/>
	\$607 25

The above bills were for services rendered previous to May 1st, 1858.

The Town, at its last annual meeting, appropriated \$600 for the contingent expenses of the Fire Department, and we have approved bills to the amount of \$438 84, of which sum at least \$250 00 have been expended for painting and repairing Hook and Ladder Carriage, repairs on Engine Houses Nos. 2 and 3, purchase of new Hose, and other additions to the property of the Department.

We think that the interest of the town demands a more systematic and ample supply of water. There are sections of our villages where there is very little if any available water in case of a fire.

All will readily admit that it is extreme folly to expend as much, and liberally, as the Town have for Fire Apparatus, and leave the matter of water without a judicious supply.

The main Reservoir near the Common was drained dry in about one hour, at the time of the Walcott fire; that should be sunk lower if possible. Then, as to other localities, in our judgment there should be something done; and we would recommend a suitable sum to be appropriated for that purpose.

The Department has been called out during the past year three times.

May 5th,—Fire at Dea. W. A. Wight's Barn.

Nov. 17th—Fire at Cohn Shop.

Feb. 13th—Fire at E. Walcott's Barn.

All of which is respectfully submitted.

Loss to the Town,	15 58
	<hr/> \$2076 86

The Annual Report of the Chief Engineer of the Fire Department.

For a detailed report of the property in the hands of the Department, belonging to the Town, you are referred to the Annual Report of Last year.

There is at the present time considerable of an amount of Hose that is worn out and worthless ; consequently, in order to render the machines servicable, it is recommended that an appropriation of \$350 be made for the purchase of new Hose.

The Town appropriated at its last annual meeting \$500 for contingent expenses of the Department, and bills of that character, equal to \$206 66 have been approved by the Board, and it is recommended that \$300 be appropriated for the same object for the year to come.

Bills for services rendered at fires, &c. by the Department, in accordance with a vote of the Town, have been approved to the amount of \$1003 85, this includes the time from May 1, 1858, to May 1, 1859. Considerable dissatisfaction having been expressed in regard to the manner of paying the Firemen for services rendered, a change is recommended to the consideration of the Town.

The Town also appropriated \$1000 for the purpose of digging wells, sinking reservoirs, &c., and the Board have, in accordance with the same, built one reservoir near the Post Office, at an expense of \$75 ; also one reservoir under Engine House No. 1, one on Summer street, near the house of N. Smith, one at the junction of Pond and Plain streets, one near the junction of Common and South Main street, and one at South Natick near the J. W. Cotton's shoe manufactory ; at a cost of about \$425. And also two reservoirs at Felchville, one near the Engine House, and one near the house Dea. John Travis, at a cost of about \$105 ; making the whole amount expended, together with a few small items in accordance with the appropriation, \$609 10, leaving a balance unexpended of \$390 90, and it is recommended that this amount remain for subsequent use as originally designed.

The Department has been called out, a part or all of it, since the last report 8 times—first at R. E. Farwell's shop, March 10 ; second, April 7, at Mr. Felch's ; this Barn being the largest loss and amounting to more than all the others. The whole loss during the year not exceeding one thousand dollars.

The number of members, upon the first day of May last belonging to

Victor Engine Co. No 1,	was	42
Hook & Ladder Co.	"	25
Eliot Engine Co. No. 2	"	39
Mazeppa Engine Co. No. 3,	"	33

The Board of Engineers since May last have consisted of J. E. Forbush, Isaac Felch and S. Merrill.

All of which is respectfully submitted.

NATHANIEL SMITH, CHIEF ENGINEER.

. Natick, February 20, 1860.

*Gleanings from the Town Records.***MARRIAGES, BIRTHS AND DEATHS.**

*The Fourth Annual Report of the Chief Engineer
of the Fire Department.*

The property belonging to the Town at the present time is in good condition; the Engine Houses are in good repair, the Engines, Hook and Ladder Carriage and the apparatus belonging to the Department are all in good working condition, except No. 2 Engine, which was badly blistered at Samuel Walcott's fire, and that is being repainted.

At the last annual Town Meeting for granting money, the Town appropriated \$350 for the purchase of new hose, and in accordance with that vote the Board purchased 400 feet of Boyd's new Patent Hose, two pieces of which failed to meet our expectations, which was sent back and replaced with new and perfect hose. There has been some feeling of disaffection expressed by citizens of the town in regard to this hose, but the Board were satisfied from what they could learn with regard to its merits that it was best to give it a trial, and time alone will test the wisdom of so doing.

At the meeting referred to above, \$300 was appropriated for contingent expenses, bills of that description have been approved to the amount of \$243 71.

The balance of the appropriation for sinking reservoirs which was laid over last year, still remains unexpended in consequence of the continued wet season, there having been no time when it could have been done judiciously; and it is therefore recommended that the amount \$390 90 be still devoted to the same purpose.

The entire department has been called out 5 times: March 17th at Stewart's house, June 15th at small house near Stewart's, Aug. 18th at A. Thompson's barn, Aug. 28th at Long Pond House, Nov, 6th at Samuel Walcott's Shoe Manufactory; Companies 1 and 3 were

called to a fire in the woods near Willow Bridge, May 2d, at Ingram's store, (so called,) Sept. 22d, and at the Barn formerly occupied by Dea. John Travis; Company No. 1 only called out at Bartlett's shop, May 12; Company No. 3 only out at Joseph Black's house, Oct 1st, and at John Wilson's house Oct. 20th.

During the past year there have been matured and put in operation some regulations for the alarms of fires, which are designed to save unnecessary running at trivial alarms by the Department, and also to save expense to the Town; therefore it is sincerely hoped after due trial, they will prove advantageous and satisfactory to all concerned.

It will be seen by the above, that the number of fires have been more than any preceeding year, and that not only the number is greater and the amount exceeding any former year, but all former years since the Town was incorporated; the amount of property destroyed by fire during the year being nearly or quite one hundred thousand dollars.

The Board, as now constituted, consists of J. E. Forbush, Simon Milligan, and C. B. Travis.

All of which is respectfully submitted,

NATHANIEL SMITH,

Chief Engineer.

NATICK, Feb. 22d, 1861.

Selectmen
of
Natick.

NATICK, Feb. 20, 1862.

Report of Chief Engineer of the Fire Department.

The Engineers of the Fire Department beg leave to submit the following Report :

The Engine Houses are in good repair. The Engines, Hook and Ladder Carriage, and all the apparatus are in good condition.

The Department is very deficient in numbers, more than half the members having enlisted in the service of their country, for the maintenance of the "Stars and Stripes." It is to be hoped, therefore, that the citizens generally will respond promptly to any fire alarms that may occur. Although we have good apparatus for extinguishing fires, it will avail us little unless properly manned.

The present Board have approved bills to the amount of sixty-four dollars and two cents. (\$64 02.) The balance of the appropriation for sinking reservoirs still remains unexpended. It is recommended that the amount, three hundred and ninety dollars and ninety cents, (\$390 90) be devoted to the same purpose whenever a favorable opportunity occurs for so doing.

The Department has been called out seven times ; May 4th, at barn on Cottage street, belonging to Walcott heirs ; May 24th, small house near R. Pebbles' shop ; Sept. 5th, Walter Morse's barn, near the Common ; at Charles Bailey's shop ; Oct. 13th, house on the Plains ; Dec. 23d, hay stack at Thos. Sawin's farm ; Dec. 28th, Mr. Balgh's barn (formerly Leland Place.)

The Board of Engineers consist of Nathan Reed, and Charles Morse. All of which is respectfully submitted.

SIMON MULLIGAN,
Chief Engineer.

WILLARD DRURY, } Selectmen
 WM. EDWARDS, } of
 Natick, Feb. 19, 1863. C. B. TRAVIS, } Natick.

REPORT OF CHIEF ENGINEER OF THE FIRE DEPARTMENT.

The Engineers of the Fire Department beg leave to submit the following Report :

The Engine Houses are in good repair. The Engines, Hook and Ladder Carriage, and nearly all the apparatus are in good condition. The Fire Department is yet deficient in numbers, and wish for more men. Since the appointment of the present Board, there has been but one fire and that at South Natick.

The Board consists of IRA FELCH, and JACKSON BIGELOW.

All of which is respectfully submitted.

NATICK, Feb. 19, 1863.

D. M. GERRY,
Chief Engineer.

ANNUAL REPORT OF THE CHIEF ENGINEER.

The Board of Engineers as now constituted, are Jackson Bigelow, Ira Felch, J. B. Messinger, Seth Walker, and Nathaniel Smith.

And on entering upon the duties required of them, found very many things needed repairing, such as one reservoir unfilled, the platform and covers to the same worn out; the conductors of No. 1 Engine House down, and a part of them lost; a number of pieces of hose burst; all of which have been attended to, and the apparatus belonging to the department is believed to be in a good and serviceable condition, except the hose which is very poor. There being but a very little good strong hose in town, and an appropriation for that purpose is much needed.

Since the last Annual Report the old Board of Engineers approved bills to the amount of \$726 62. The present Board have approved bills to the amount of \$245 22. Total, \$941 84. During the year there has been three or four alarms, and but two fires, one the barn of Willard Morse, July 23d, the other the store and shop of Asa Felch, Jan. 12th which were entirely consumed.

All of which is respectfully submitted.

NATHANIEL SMITH,

Natick, Feb. 27th, 1865.

Chief Engineer.

TO NATHANIEL CLARK, TREASURER
OF THE TOWN OF NATICK.

SIR:—Pay out of the Treasury to Thos. F. Hammond, Collector, the sum of Seven Hundred and sixty-three dollars and thirty-eight cents; it being an abatement of the following persons Taxes for 1862, and this shall discharge you for so much as Treasurer.

REPORT

OF THE

CHIEF ENGINEER.

The Fire department is in better condition for service at the present time than they have been for several years past, all of the companies having their compliment of men nearly or quite full.

The apparatus and fixtures are in good and serviceable condition, except the hose, and would recommend to the town to appropriate a suitable sum for the purchase of new.

There have been the past year but four fires, the first one a small House on Nebraska Plain (so called) in the first part of the season. The second the Widow Walker's House at the West Part and a Barn on the opposite side of the street, on the 14th of Jan.

Feb. 10th, the House of Mr John Robbins and a Stable near it, which was decidedly the largest fire of the season if not more than all the rest, and on the morning of the 12th, the Bowling-alley was consumed with its contents. The town have reason to congratulate themselves that so little property has been destroyed during the year.

The Eliot Engine boys have long been cramped for want of room, and there seems to be a favorable opportunity to give them better accomodations, by selling the old house and purchasin another building a few rods from it, and use it for an Engin House and Lock-up; and it is recommended that the town choose a Committee to take the subject under consideration and report the April Meeting.

The appropriations and money expended see Selectmen's Repo

The present Board of Engineers are Ira Felch, Seth Walker, J. B. Messenger and Aaron Wheeler.

All of which is respectfully submitted.

NATHANIEL SMITH,

Chief Engineer.

NATICK, Feb. 21, 1866.

*To Nathaniel Clark, Treasurer of tde Town
of Natick,*

SIR:—Pay out of the Treasury to Jackson Bigelow, Collector the sum of Two Hundred and Forty one Dollars, and eighty-two cents, (\$241 82.) it being an abatement of the following Taxes for the years 1864 and 1865.
